

# Free CROSS STITCH Pattern

Hello gl camper fans! My name is Gretchen Fleener and I designed this pattern of my 1963 Shasta trailer specifically to create a graphic wall hanging for my business (right)! While I am not a professional pattern creator and this likely doesn't get as specific as a pattern you'd find in a store, I decided to offer it up for free to anyone else who loves vintage trailers as much as I do, and might like to create their own! Below is the graphic I used to make mine. Choose whichever floss colors you wish and make it your own! I added some black outlining and embroidered the Shasta logo on mine too. Maybe add some trees and a campfire! Have fun with it, and be sure to share YOUR finished creation with us on Facebook or Instagram by tagging us @ GlitterGl camper...we'd love to see what you come up with!
